Indiana Dep
SUPPORTING ST

Welcome to The On-Line Legal Standards Assurance application. Building principals and superintendents are able to electronically certify compliance with Indiana Department of Education Accreditation Legal Standards. This application replaces all previous paper assurance forms previously faxed to DOE.

This application utilizes a "Scoreboard" that allows authorized users to monitor their compliance. Building principals will see only their schools; superintendents can complete the assurance items for the district as well as use the drop-down list of schools to monitor the progress for each school in the district. You may click on each item on the scoreboard to see the assurance form. Once you complete each assurance, the scoreboard will turn green for that standard.

Additional standard details and contact information can be found on the [DOE Accreditation](#) web page.
