IB Meeting 10-12-2012

Dr. Graber, Dr. Watson, Ms. Bonenberger, Ms. Crick, Mr. Ulrich

We discussed the AM or PM block schedule format that was necessary to make this work. The AM time frame would be 8:00 to 11:00 and the PM 11:30 to 2:30. Ms. Bonenberger presented some ideas of courses. She presented the trainings dates available and was to send a revised one in email. The possibility of Bosse teachers teaching IB courses on UE campus to complete the student's schedule was also discussed. It would be necessary to have a room. With space limited it was thought that the "conference room" type areas that hold 10-12 students might be the best option and was considered possible.

Ms. Bonenberger will contact everyone with a meeting invite in approximately two weeks. (Friday afternoon again) The topics: 1. UE will present specific courses, days, and times within the framework discussed and discuss with their folks about this being a pilot program 2. Bosse will discuss how they will promote and message to the EVSC schools. 3. Collectively it will be decided who needs training, when, where, and who will fund the cost.

Next steps for Bosse: 1. Revise the IB Program of Studies to present. 2. Present to the format to the next faculty meeting to explain why we are trying to collaborate/partner with UE and determine if a block schedule is even feasible next year – as it would be impossible to complete without.

UE wants: IB students on its campus and to assist EVSC as part of its partnership in the School of Education

EVSC wants (Dan, Linda, and Amy discussed after UE left the table): Tuition waiver for monies spent in addition to the UE cheap credits, more UE credits for our IB – SL courses, Full scholarships for IB Diploma students with a specific ACT or SAT score, and a summer Harlaxton program between the Jr. and Sr. year for IB Diploma students.

Need to know: EVSC – ETA contract issues with voting on block again and what to do if the block is voted down for 2013-14.
